Social Psychology Photo Essay
20 Marks

Your task is to take 10 photos representing the following concepts from Social Psychology and write a description that shares the meaning of the photo and photo credits.

- Photos can also be found online, remember to always cite the reference of where the image came from.
- Also, when taking images, remember to ask permission to use photos of your friends, peers….I would advise against taking pictures of strangers. Do NOT use an image if someone asks you not to.
- Each image is worth 2 marks - 1 for an image that reflects the social psychology concept, and 1 mark for a clear description.

Images:
1. Social Psychology - What does social psychology mean to you? Remember, social psychology is how we act, think and feel in social situations. (2 marks)
2. Attitude (2 marks)
3. Deindividuation (2 marks)
4. Conformity (2 marks)
5. Social Norms (2 marks)
6. Obedience (2 marks)
7. Foot in the Door Phenomenon (2 marks)
8. Bystander Effect (2 marks)
9. Social Facilitation (2 marks)
10. Social Loafing (2 marks)

Post the photos to your blog and make sure to include the description with each photo!
